

# HSW B-MATIC

with Tubing Connection or Universal Bottle Adapter

0.5 ml / 1 ml / 2 ml

The HSW B-MATIC is an AUTOMATIC SELF-FILLING SYRINGE FOR INJECTIONS across various animal species. Combining the strengths of the HSW ECO-MATIC® and HSW UNI-MATIC®, it offers ergonomic comfort, universal compatibility and precise, adjustable dosing for flexible applications.

## ● VERSATILE AND FLEXIBLE APPLICATION

- optimized for different species to ensure a wide range of use
- syringe can be used universally (with tubing connection and universal bottle adapter)
- combination with various cylinders, universal adapters and tubes possible

## ● COMPATIBLE AND CUSTOMIZABLE

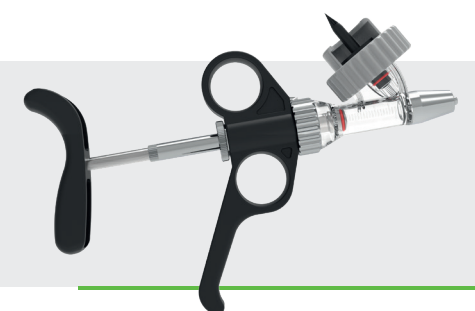

- cylinder / front part of the syringe is compatible with existing HSW ECO-MATIC® line, ensuring maximum flexibility
- a wide range of accessories allows for individual adaptation and versatile use

## ● ERGONOMIC DESIGN, WORLD-RENOWNED SHAPE

- the world-renowned ergonomic shape of HSW B-MATIC offers maximum user comfort
- combination of two established products (HSW ECO-MATIC® and HSW UNI-MATIC®): Benefit from our many years of experience and expertise

## ● ADJUSTABLE DOSAGE

- dosage can be flexibly adjusted to ensure precise applications
